

# SKI SIMULATOR

(SINGLE, TWIN & TRIPLE VERSIONS AVAILABLE)

This remake of the arcade classic comes with brand new characters and completely redesigned courses.

The Alpine Racer has a vertically mounted 55" HD monitor. There are many multi-coloured LED lights infused into the cabinet mouldings make for a beautiful and eye-catching game.

The Alpine Racer's "Multi-Pivot" skiing movement platform simulates the movements of a downhill skier. Players feel the wind through their hair from the built-in air blowers and must shoot through the gates to gain additional boosts to their speed, while performing insane ski tricks in the air.

Feeling competitive? Why not hire two or three Alpine Ski Racers? Our machines can be linked for head to head, multiplayer racing for added fun!!
